

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

This global air transportation network dataset is a comprehensive collection of information on airports ,airlines & their routes

It contains information such as names,cities,countries, codes(IATA and ICAO) Longitudes,latitudes and altitudes of airports across the world with detailed time zone and daylight saving time data.

This dataset has been compiled through meticulous labor by researchers all over the world to give you a comprehensive detail into air transportation networks from around the globe.

This dataset has been compiled by researchers throughout the world to provide us with the comprehensive details on air transport network around the globe .

This whole work is being done by researchers throughout the world to improve the means of air transportation .

This project provides us with hope of achieving bigger goals and development by the means of air transportation.

The schedules , routes and information of airplanes and airports are recorded.

It provides us with essential information on the longitudes and latitudes of airports across the world with detailed time zone and daylight saving time data.

Similarly, it also covers route details such as airline sources to destination airports along with essential details like codeshare stakeholder if any stops required during this journey along with the type of aircraft being used for that particular journey.

To avoid the occurrence of aerial accidents the data of air was throughout the globe is recorded and researched.

The fear that a plane may fall shall never occur in the minds of the people and for the sole purpose of ensuring that faith the researchers across the globe carry out these researches efficiently.

To ensure safe and comfortable journeys for the passengers and to maintain the steady growth by means of air transportation, this research is inevitable .

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
